Dear Friend,

2018 was a year of celebration — celebrating 10 years of service to our community. We are proud of all that we’ve accomplished but there’s still work to be done. As friends of the Community Health Clinic of Butler County you are probably aware that the name has changed. The Jean B. Purvis Community Health Center is now the official name of the Community Health Clinic of Butler County.

I’ve been asked why we would change the clinic’s name after 10 years. The reason is simple. The center has evolved to much more than a clinic. The clinic has become a health center.

Since the conception of the health center and from the start 11 years ago, we have identified a need for education far beyond diabetes. We have expanded our classes to social media so it isn’t necessary to be physically present for learning to be achieved. We look forward to continuing the growth of our Health and Wellness Department in 2019.

Changes in the Dental Department have occurred as well. After the retirement of our long time dental coordinator, a new dental manager was hired. Extensive outreach has begun and 4 new volunteer dentists have been obtained.

As the Dental Department is growing, so is the Behavioral Health component of the center. It became necessary to limit our service in this area to treating anxiety and depression. Each week we see patients who are actively struggling and continue to work their way through dark waters.

Outreach and Case Management have exploded during the 2018 calendar year. We continue to see the results of outreach as we continue to meet and network with local community partners and businesses, sharing the services that we provide and growing to meet the needs of the community.

Another reason we changed our name during our 10th Anniversary celebration was to honor our mentor, friend and the backbone of the center, Jean B. Purvis. Jean continues to inspire our volunteers, staff and board with her dedication, commitment and unlimited enthusiasm which helps move forward both our mission and vision.

The Jean B. Purvis Community Health Center has grown and thrived for ten years due to the volunteers who strive every day to make the center a success. Beyond the volunteer practitioners (medical, dental and pharmacy) we also acknowledge all the volunteers, clerical and administrative, who perform the necessary tasks that keep an agency going. We thank each volunteer for his/her hard work and dedication to the clinic.

We would be remiss if we did not acknowledge the donors and center’s partners who by their generous donations make it possible for the center to continue its mission. Butler Health System, UPMC, Concordia Lutheran Ministries, United Way and the many donors who generously give to the center on a regular basis. We thank you for your consistent and generous support throughout this past year.

We look forward to 2019 where our course is set and our possibilities are endless.

Kimberly Reamer
Executive Director

JEAN B. PURVIS COMMUNITY HEALTH CENTER
BOARD OF DIRECTORS 2018-2019

**EXECUTIVE COMMITTEE**

David Konesni, President
Jim Cunningham, Vice President
Ernie Frantestine, Treasurer
Jean B. Purvis, Secretary
Sue Switzer, Assistant Secretary
Natalie McKay, NHA, MHA, Co-Chair, Clinical Services

**BOARD**

Judy Connelly
Dr. William DiCucchio
The Reverend James Dollhopf
Dr. Edward E. Fink
Judge Marilyn Horan
Conni M. Mazzoni
Ruth Purcell
Dr. S. Ramalingam
Morgan Rizzardi
Heather Thomas

This year we honored Larry Berg, long time radio personality and community activist, with our Community Cornerstone Award. Mr. Berg was recognized for his achievements benefiting the community over more than half a century as well as his integral role in raising funds and awareness for the Center. Here he is pictured between Kimberly Reamer, Executive Director and Jean B. Purvis, for whom the award is named.

**Our Mission:**

To provide primary integrated healthcare services for neighbors in Butler County and surrounding communities.
MAKING A DIFFERENCE

We know we are making a difference!

In 2018, we had 279 appointments for **NEW** patients – patients without insurance we haven’t seen before and more than doubling our new patient visits from the previous year!

We provided **$318,702.00** worth of prescriptions free to our patients.

We provided almost **1600** services in 2018 to medical patients, behavioral health patients and dental patients.

We increased the number of wellness classes we provided by **133%**!

We increased the number of **Veterans** to whom we provide dental services by **11%**.

**Every year now for 9 years,** the A1C results for our diabetic patients in the diabetes management program have lowered...meaning they are better managing their diabetes, staying off complications such as blindness and amputation, and increasing their life span.

The top 5 diagnoses of our patients in 2018 were:

- **Hypertension**
- **High Cholesterol**
- **Depression**
- **Cardiovascular Disorders**
- **Diabetes**

June 21
Our 3rd Annual Jean B. Purvis Cornerstone Community Award honoring Dr. Nicholas Neupauer
6 p.m. Butler Country Club. Tickets are limited. 724-841-0980 x101.

Dr. Nick Neupauer is now in his 12th year serving as president of Butler County Community College. He has taken the College from a small county facility to being named Pennsylvania's No.1 community college 3 years in a row!

Under his leadership the College has:
Earned 5 consecutive Military Friendly School recognitions
Earned a Top 10% ranking by OnlineColleges.com for its distance learning program
Won the President's Cup at the Western PA Community College Leadership Institute
Has grown the College's fundraising, more than doubling the amount it raises
Increased scholarship opportunities, invested in campus safety, developed a Degree Completion Partnership Program
Developed 6 campus locations

He has also served the community by being a member of the Boards of:
Community Development Corporation
Jean B. Purvis Community Health Center
Butler County Chamber of Commerce - Board Chair
PA Commission for Community Colleges Board - Board Chair
And has served as Chair of the Heart Association and March of Dimes Walks.

November 2
Signature Sensations – Our Signature event!
This will be the 8th year WQED's Chris Fennimore comes to Butler Country Club to cook with noted Butler County area chefs and then serve the meal to those in attendance. Six courses complete with wine pairings.
2 p.m. wine education session (optional)
3 p.m. program and meal
Specialty vendors, basket raffles, live auction and more
To secure tickets or for more information visit our website www.butlerhealthclinic.org or call 724-841-0980 x101.

Our typical patient...
Is a 46 year old man or woman
Is At 111% of the federal poverty guidelines, with
an annual household income of $20,000 or less
Has a high school education
Is working full time or part time
Is equally likely to be married or single
Is Caucasian
Has heard about the Center from family or friends

WQED's Chris Fennimore learns the secrets of her chocolate cake from Megan Roth of Main Street Bake Shop in Saxonburg. Now in its 7th year, our Signature Sensations event brought in a banner crowd to raise funds for our Center. Fennimore came to Butler Country Club again to cook with 6 Butler County chefs and then serve each of those courses to the audience along with wine pairings. New this year was a wine education program provided before the dinner by a Napa Valley wine ambassador.

THE YEAR IN REVIEW

It was once said “An organization cannot stay static. It is either growing or dying.” Every organization must make that decision—what will it be?

At the Jean B Purvis Community Health Center, we made the decision to grow... not for the sake of growing, but because so many in our community need the services we can provide.

Almost 2 years ago, we embarked on our detailed and thorough strategic planning process. Guided by a professional strategic planning facilitator, our entire Board as well as staff representation developed a comprehensive strategic plan – the step by step plan to guide us into a future of assurance and growth.

As per our plan, we began an aggressive outreach program in 2018... a program to reach out to communities, community groups and the far reaches of the county to make both potential referral sources and potential clients aware of us and our services. We have met with multiple agencies, dentists, the Veterans Administration Hospital, Slippery Rock University and Slippery Rock Business Association to tell the story of what we, the Center, can do. We continue to do this with encouraging results.

Because we focus on improving health as a lifelong process for our patients, we invest in health and wellness classes that teach them and their families everything from chronic disease management like living with diabetes or high blood pressure to healthy cooking and how to acquire healthy foods. In this year we increased the number of classes we offer both to our patients and to the community by 133%

To grow, we need to grow the number of volunteer clinicians who can see and treat patients. In the past year, we increased the number of physicians and dentists seeing patients. In addition, we strengthened our relationship with colleges and universities to increase the number of interns that join us, aiding us in patient treatment while they learn.

Our dental program went through significant change in the past year, with both the dental director and the dental assistant retiring. While we will miss both of these qualified individuals, this scenario gave us the opportunity to revamp our dental program for efficiency and ongoing clinical excellence. We also continued to grow the Veterans dental program, seeing an increase in 13% of patients treated over 2017.

Our future is dependent on fundraising. We must raise our entire budget annually. In 2018 our seasoned Director of Development retired and we hired a new director. We then implemented additional strategies to increase the amount raised through our current events and our direct mail appeals. Our Community Cornerstone event increased the dollars raised by over $6,000 and Signature Sensations raised an additional $6,300. We also increased the number of foundations to which we submitted grants to increase revenue. In 2018, we raised more than $60,000 in new money.

Increasing number of clinicians treating, number of dollars raised and number of patients we see is our formula for success. This formula will allow us to fulfill our mission and achieve our vision --- a vision clearly focused on a future full of promise.

WHY DO I VOLUNTEER?

When I retired from teaching in 2004, I knew that at some point I would want to volunteer somewhere, but I just wasn’t sure where that would be. Then I heard about this community health clinic that was moving from being a dream in the minds and hearts of Jean Purvis and her team to becoming a reality for Butler County. This would be a place where local residents who had no health insurance could come to receive primary health care—FREE!—instead of having to rely on the emergency room when their situation was desperate. How could I not want to be involved in something like that? So when volunteers were being recruited prior to the clinic’s opening in January of 2008, my neighbor and I showed up at 103 Bonnie Drive to see how and where we might fit into this new service being offered in our community. I have been a volunteer here ever since! (with a brief hiatus for knee replacement surgery in 2010)

I have been a front desk volunteer from the beginning—making, confirming, and cancelling appointments; answering questions, greeting patients and visitors; assembling new patient charts; working on special projects or whatever else the center needs me to do—although my role has evolved through the years. I have always enjoyed my hours here (even during the transition to the new patient records system Athena); not only because it’s personally rewarding to be part of an organization that serves its neighbors with great care and compassion, but also because working with the staff and other volunteers at the Purvis Community Health Center is such fun! You will not find a more dedicated and caring group of people anywhere. When I reflect on how our services have expanded over the years—from primary health care and prescriptions for the uninsured, to dental care for our patients (as well as for local veterans), plus diabetic care and education—I am proud to be part of an organization that offers this range of support to the Butler community.
PARTNERS FOR A HEALTHIER COMMUNITY

The "Partners for a Healthier Community" giving club is an informal association of people who provide leadership through their financial support. Their gifts, as part of the annual fund, are used to help provide ongoing operational funding for the Joan B. Purvis Health Center. Our apologies for any errors or omissions. Please notify us of any corrections.
